SHOVAN BERA

+91-8927967122 | dev.shovanbera@gmail.com | Barasat, Kolkata – 700125 | LinkedIn

PROFESSIONAL SUMMARY

Motivated Computer Science graduate specializing in AI & ML with strong foundations in software development, application support, and problem solving. Proficient in Python, JavaScript, SQL, REST APIs, and FastAPI with hands-on experience developing backend applications and integrating APIs. Familiar with React.js, Node.js, MySQL, MongoDB, Git, and Agile development practices. Passionate about building scalable, client-focused software solutions, troubleshooting technical issues, and writing clean, reusable code.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML5, CSS3

Web Technologies: FastAPI, Flask, REST APIs, React.js (Basics), Node.js (Basics), Responsive Web Design

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook

Cloud Exposure: AWS, Microsoft Azure, Google Cloud Platform (Basics)

Core Skills: Data Structures & Algorithms, Object-Oriented Programming, DBMS, SDLC, Software Implementation, Application Support, API Integration, Debugging, Agile Methodology, Problem Solving

Testing: PyTest (Basics)

EDUCATION

Bachelor of Technology – Computer Science & Engineering (AI & ML) Aug 2022 – Jul 2026

Brainware University, Kolkata, West Bengal

Higher Secondary Certificate (WBCHSE) 2022

PROJECTS

AI-Powered Video Transcription & Summarization System Python — FastAPI — REST APIs

- Developed a Python backend application using FastAPI for video transcription and summarization.
- Designed and implemented REST APIs for video upload, transcription, and summary generation.
- Integrated third-party services to automate data flow across application components.
- Built modular and reusable backend components following software engineering best practices.
- Troubleshot API integration, deployment, and dependency issues to improve application reliability.
- Used Git and GitHub for version control and collaborative development.

TECHNICAL COMMUNITY ENGAGEMENT

Active Member – College Tech Clubs & Coding Communities

- Regularly solve Data Structures & Algorithms problems on LeetCode, HackerRank, and CodeChef.
- Collaborated on team-based software development projects using Git.
- Participated in workshops on Web Development and Emerging Technologies.
- Continuously learning cloud deployment, software implementation, and backend development.

CERTIFICATIONS

- 5-Day AI Agents: Intensive Vibe Coding Course
- Emerging Trends in Technology
- Quantum Computing Workshop
