Barasat, Kolkata – 700125

Education

Brainware University — Kolkata, West Bengal
Bachelor of Technology in Computer Science & Engineering (AI & ML) — *Aug 2022 – July 2026*

- Relevant Coursework: Data Structures, Algorithms, DBMS, OOP, AI/ML, Software Engineering

West Bengal Council of Higher Secondary Education (WBCHSE) — West Bengal
Higher Secondary Certificate (12th Grade) — *2022*

Technical Skills

Programming Languages: Python, Java, JavaScript, HTML/CSS
AI/ML & Data Science: TensorFlow, PyTorch, scikit-learn, Pandas, NumPy, Keras, NLP
Web Technologies: HTML5, CSS3, JavaScript, REST APIs, Responsive Web Design
Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab
Core Competencies: Object-Oriented Programming, Data Structures & Algorithms, DBMS, SDLC, Machine Learning, Deep Learning, Model Deployment

Projects

AI-Powered Video Summarization System | *Python, TensorFlow, NLP, Transformers* | GitHub

- Engineered an end-to-end video summarization pipeline that automatically converts video content into concise textual summaries using speech-to-text and advanced NLP techniques
- Implemented audio extraction, transcription, and abstractive summarization using Transformer-based models (BERT/GPT) achieving high-quality summary generation
- Developed scalable Python backend to handle video processing, model inference, and API integration for real-time summarization
- Technologies: Python, FFmpeg, Whisper API, Hugging Face Transformers, Flask/FastAPI

Achievements & Leadership

Smart India Hackathon 2023 (SIH'23)
Selected Participant – National Level Hackathon

- Selected among top teams nationwide to develop innovative solutions for real-world government challenges
- Collaborated with cross-functional team to design and prototype a technology solution under time constraints

Technical Community Engagement
Active Member – College Tech Clubs & Coding Communities

- Regular participant in competitive programming contests on HackerRank, CodeChef, and LeetCode platforms
- Conducted peer mentoring sessions and collaborated on team-based software development projects
- Participated in workshops on Web Development, Quantum Computing, and Emerging Technology Trends

Certifications & Training

Web Development Workshop: Built responsive, mobile-first websites using HTML5, CSS3, and JavaScript
Quantum Computing Workshop: Explored quantum algorithms, qubits, and quantum computing fundamentals
Emerging Trends in Technology Workshop: Studied modern technology stacks and industry applications
